## ComputerSearch Payroll Services announces 2 promotions

[AMHERST, NY] – ComputerSearch Payroll Services recently announced the promotion of 2 of their executives.

John A. Bruno Jr. has been promoted to President after serving as the company's Vice President the past 2 years. As President, John will have overall responsibility for growth and management of the company and its 28 employees. Prior to joining ComputerSearch in 2008, Bruno spent eighteen years in the computer industry, most recently at Microsoft, with a strong focus in sales, marketing, and general business management.

Mark R. Terry has been promoted to Vice President of Sales & Marketing. In this new capacity, Mark will have overall responsibility for sales growth of the company as well as management of the sales and marketing team. Mark has been with ComputerSearch for twenty years in sales and sales management after spending 2 years at Paychex.

ComputerSearch Payroll Services, founded in 1967, is the area's largest locally owned payroll processing service bureau. The company provides payroll, tax filing, and employee benefit services to over 2000 client businesses in Western New York and beyond. Their low overhead and streamlined processes allow them to provide payroll services for about half the cost of their national competition.
